Redefining High Performance:

High quality mono print resolution ensures consistent output in crisp, sharp detail. This range also allows you to reduce paper consumption by up to 75%. Simply use automatic 2-sided and booklet printing as standard for A5 booklets to produce your essential business documents.

This range has specially designed features to keep your running costs low. The optional high yield toner cartridges together with the separate drum ensure running costs are kept to a minimum.

Brother's new mono laser range is compatible with a range of mobile device solutions. This will allow you to print from a host of applications and file types:

Our print & scan app offers extremely convenient printing, helping you improve productivity levels. Brothers iPrint&Scan allows you to print and scan straight from your Apple iPhone, iPad, iPod touch, Android™, Kindle Fire™, Windows® Phone 7, and Windows® Phone 8 mobile devices whenever you're connected to the same network as your printer.

Another supported technology is Google Cloud Print, which allows you to connect your printers to the web. You can make your printers available to you and anyone you choose, from the applications you use every day. Google Cloud Print works on your phone, tablet and any other web-connected device you want to print from.

AirPrint

AirPrint allows you to print your email, web pages and documents. There's no software to download, no drivers to install and no cables to connect. With just a few taps, you can go from viewing something on the screen to holding a printed copy.

More information here:
http://www.brother.eu/g3.cfm/s_page/898920

Built for speed, this range has an impressive first page out time of less than 8.5 seconds. With a print speed of up to 30ppm it'll easily handle your print demands.

Integrated

A range of powerful scanning features including scan to Evernote Business and scan to FTP allows information to be shared both locally and remotely in an instant.

Web connect

With Brother All-in-One printers, you can connect directly to the web from your product. Print from and scan to web services including Dropbox, Google Drive, OneDrive and Box without the need for a PC.

PRINT SOLUTIONS FOR YOUR OFFICE

The new mono laser range is compatible with a host of new PrintSmart solutions.
Brother's PrintSmart umbrella is a range of business solutions to help you control printing in your organisation. b-guard, our print management software, will help you to track and manage your total print output to deliver greater efficiency. Our Managed Print Services take the hassle away from supplies ordering and replenishment.

The PrintSmart managed print programmes have been developed specifically to meet the needs of small and medium businesses. PrintSmart gives you the flexibility of leasing or purchasing your print hardware and then paying for the supplies on a 'per click' basis – meaning you only pay for what you print.

Increase security and prevent documents ending up in the wrong hands

Saves you money by helping reduce paper and toner wastage

Offers complete visibility and control of your printer fleet

Helps protect the environment by reducing your paper wastage

Balanced Deployment - In the modern business, printing is more than a simple TCO calculation. Balanced Deployment considers factors that aren't always visible and provides a complete picture of the costs and time saving benefits to the print optimised business.

KEY BENEFITS
• Optimises your print fleet with your needs
• Effective
• Cost control & reduction
• Time saving

b-guard - In the print optimised organisation, managing, reporting and tracking device interaction is of paramount importance. b-guard enables companies to operate more efficiently by enhancing security, providing greater visibility and control over print costs and reducing the environmental impact of printing.

KEY BENEFITS

• Increase document security
• Reduce print costs by reducing paper and toner wastage
• Track and report print usage at user/departmental level
• Reduce the environmental impact of printing
