Epson **LabelWorks Pro100**

Specially designed for staff in facilities and maintenance departments, Epson's LabelWorks Pro100 label maker can create durable and temporary signage, address and identification labels. This is Epson's first label maker to use both thermal transfer and direct thermal printing technology.

Easily produce the perfect-sized label for whatever you need. Choose between 50 and 100mm wide plastic signage labels, or the specially pre-cut paper labels. Plastic labels are durable, resisting water and withstanding hot and cold conditions in a variety of environments, while paper labels provide an ideal surface to write extra maintenance notes, create address labels as well as security stickers. The label printer has a wide range of colour combinations, with seven different coloured plastic labels to choose from, supported by five different coloured ink ribbons for text.

The LabelWorks Pro100 boasts a 300dpi print resolution, one of the highest in its price range. Print more labels per tape with borderless printing, which enables you to print right up to the edge. Produce large-scale signs by enlarging your design and printing it across a number of labels. The borderless printing means you can then neatly arrange them together, side-by-side.

Connecting directly to PCs, this printer is easy to use. Once the included software is installed, an intuitive menu guides you to create labels easily and efficiently. There is an automatic trimmer to cut the labels, which makes printing more than one easier to manage. Applying straight, air-pocket-free signage labels neatly and quickly is easy with the provided label application tool which comes with a built-in spirit level.

The LabelWorks Pro100 is the market's first label maker to use Polyethylene-based Olefin plastic labels. This Chlorine-free material, along with the printer's ENERGY STAR certification, helps make it an environmentally-friendly alternative to other durable signage labels printers.

KEY FEATURES

- Desktop electronic label printing system that connects to your PC
- Thermal transfer and direct thermal printing – both plastic and paper labels
- Accepts 50 and 100mm plastic tape widths and pre-cut thermal paper label roll
- Borderless printing means more labels per tape – also create larger signs by printing an image or text across a number of labels and arranging side-by-side
- Hassle-free label production with automatic cutting
- Wide range of plastic labels and text colour combinations
- Import data in csv, txt and xls(x) formats and print labels for each line of data
- Easily insert images, borders, barcodes and symbols

EXCEED YOUR VISION

PRODUCT SPECIFICATIONS

PRINTING	
Technology	Thermal Transfer and Direct Thermal
Tape width	50, 100mm
Resolution	300dpi
Printable dot numbers	1256
Max. print height	100mm
Max. print speed	20mm/sec
Max. no of printable lines	Custom
Max. text length	Custom

PRINT SETTINGS	
Repeat printing	Yes
Auto increment	Yes
Enlargement printing	Yes
Mirror printing	Yes
Vertical printing	Yes
Barcodes	14 : EAN-8 / EAN13 / CODE39 / CODE128 / UPC-A / UPC-E / CODABAR / ITF / EAN128 / GS1DataBar / QRcode / MaxiCode / PDF417 / Data Matrix
Margin setting	Manual/auto
Setting area	Custom

FONTS & STYLES	
	Dependent on PC

MEMORY	
Alphanumeric	Dependent on PC
Accent	Dependent on PC
Symbols	466
Saved Label Design	Dependent on PC

HARDWARE	
Cutter	Automatic
Detection	Tape width

PC CONNECTION	
Interface	USB
Operating systems	Windows 7 (32/64 bit), Vista (32/64 bit), XP (32/64 bit)
System requirements	Approx. 100 Mb HDD space
PC Display requirements	XGA (1024 x 768) or Higher
Software (Epson Label Editor)	Wizard, Pre-set labels (format), View history, Import data (.xls, .xslx, .txt, .csv), Borderless printing, Enlargement printing, Reverse video, Background patterns, PC compatible

POWER CONSUMPTION	
Printing (Average)	36W
Ready	2,3W
Power off	0,48W

GENERAL	
Dimensions (D x W x H)	261.62 x 218.44 x 137.16mm
Weight	2000g
Colour	Pale grey and green
Warranty Standard / Optional	1-year/3 years
