Introducing the Samsung SF-650

The Samsung SF-650 is the stylishly compact laser fax and copier, delivering high performance and cost effective solutions to your business. Designed with your company's needs in mind, the SF-650 is both economical and efficient. With large toner capacity and Toner Save function, you can extend toner life by up to 30%.

With one touch and group dialling features, alongside high paper capacities, the Samsung SF-650's efficiency gives you back vital time for more important tasks. Make the Samsung SF-650 the economic solution for your business.

Key Features

Deliver faster, more efficient fax communications
The control panel of the Samsung SF-650 features 20 assignable buttons for one-touch dialling, and you can also store up to 250 frequently used numbers for speed dialling. As there is often a requirement for documents to be sent to multiple locations, you can also store up to 250 groups of numbers or circulation lists, with up to 269 contacts in each. So however many people you need to fax – and however often – Samsung make it quick, easy and efficient.

Choose the right consumables option for your budget needs
The Samsung SF-650 also offers a choice of consumables to meet your cashflow needs. High yield toner cartridges, which are ideal for heavy users, last longer and give you lower costs per page. Optionally, low yield toner cartridges have the advantage of lower initial outlay.

Delay send mode saves on overseas call charges
A high volume of overseas fax traffic can add up on your phone bill. Delay send allows you to pre-define a time period when off-peak call charges apply. Then, at the touch of a button, you can delay sending documents stored in the fax memory, so they are sent at the off-peak rate – allowing you to make significant savings on your phone bill. With 7MB of memory, or about 500 pages of A4, everyone in the office can use this feature, and you can maximise your savings.

Robust, compact design
- Small footprint
The smart, compact design of the Samsung SF-650 looks good but does not take up all your valuable desk space.

- Easy access
Refilling with paper and replacing toner cartridges is quick and easy, so downtime is minimal and you stay productive longer.

Cut costs with Toner Save Mode
Selecting Toner Save Mode allows you to use less toner on each page. This extends toner cartridge life by up to 30%, gives you reduced costs-per-copy, and gives you more productive time between toner cartridge changes.
