P-C3060 MFP / P-C3065 MFP

Small, powerful and more than simply just black.

Do you want colour, but want to maintain control over it? If so, the P-C3060 MFP / P-C3065 MFP is perfect for you. You decide which members of your team can print and copy in colour or black and white and in which quantities. You can also use the intergrated login function to keep everything under control – even costs! Do it all without making any compromises on quality.

What you can expect:

Ready to go at the touch of a button: The P-C3060 MFP / P-C3065 MFP is on hand at all times, even in time-critical situations, thanks to printing and copying at a speed of 30 A4 pages per minute, scanning at speeds of up to 40 A4 pages per minute and a short warm-up time of a maximum of 26 seconds. Do you spend a lot of time on the go and need access to a secure multifunctional system from your smartphone or tablet? If so, use our Mobile Print app, Cloud Connect or Apple AirPrint to print and scan on the go.

A system with a format: The P-C3060 MFP / P-C3065 MFP processes a wide range of originals and print media in formats from A6R (such as cheques and prescriptions) to A4 and weighing from 60 up to a maximum of 220 g/m². It doesn't matter if it's cardstock, glossy paper or envelopes. It is possible to stockpile up to 1,850 sheets in a maximum of five paper sources available. This ensures you are well prepared for any tasks at all times. And if you want, you can even staple your finished documents with the optional manual stapler.

Environmentally friendly and quiet: The integrated duplex unit for double-sided printing and copying helps you to save paper. The 'skip blank pages' function also saves paper by automatically identifying and filtering out blank pages. But that's not all: The energy-efficient design of the P-C3060 MFP / P-C3065 MFP saves you money. It's also easy on the ears, as it runs extremely quietly. What's more, you can use the integrated quiet mode at any time and in any application – be it copying, printing, scanning or faxing – to reduce the noise level even further.

Clever and secure: The P-C3060 MFP / P-C3065 MFP is not only easy to operate but it also includes many practical functions. For example, you can print up to 30 pages in black and white, even if the colour toner is empty. You can assign a PIN to your print job to ensure that your confidential documents are only activated on the system after a PIN code has been entered, meaning they will not end up in the wrong hands. It is also possible to scan or print documents quickly and simply via USB stick without a network connection. These are just some of the many versatile functions available.
